TITLE: Dancing Without Space  
Lyrics and Chords

Let me be who I am, It's not part of my plan  
To be coloured into grays, to be moulded into shapes  
To be changed in the wrong ways, to be guided astray  
To be living without faith, to be living life two-faced  
To be dancing without space

**F C F G G7 G G7**  
**Am E Am E G G7 G G7**

So go find yourself a tree blindfolded and bare-feet  
Feel the bark and the leaves, find its singularity  
And likewise similarly, touch your fingers and feet  
And then clench your fists and then reach for the sky  
And I'm turning around  
and I fall to the ground

I'm still dancing without space

**Am E Am E G G7 G G7**

I'm still dancing without space
